Summary

A multi-skilled full-stack web developer with extensive experience in front-end and back-end technologies, passionate about building efficient, scalable, and user-centric applications. Passionate about continuous learning and applying modern frameworks to solve real-world problems. I have hands-on experience developing full-stack projects through a training program at King Fahad Medical City and my own initiatives, with expertise in C# and SQL databases. I am adept at collaborating in agile environments and transforming ideas into practical, high-performance web solutions. *include:*
